### Skills & Expertise

Educational activities: Graduated at the Eindhoven University of Technology (2012) with the project '3DUCATION', in which I researched the capacity of the computer to do the architectural design, based on the architect's vision on earlier designs. From this research I developed a digital design method, applied to a test-case project (designing a school).

Professional activities: Making construction drawings and architectural drawings, writing contract documents and specifications, organizing tendering, construction supervision, project management, making design and/or 3D presentations for, among others:

- Family Van Mourik, KDS vastgoed, M&M vastgoed 3 luxury villa's at Jan Thiel Oost (Vista Royal), 2020-2021- housing- Project Management- *Design IHC Architecten*
